They were not ours; we never heard to which front these were sent Wilfred Owen Is it true The book A cold wind is a work of fiction and is not intended to be a true representation of any military unit created in England. Thats what the author says and hes sticking to it! All names, places events and scenarios are the work of the authors vivid imagination. You have to believe that because if even half of this incredible story is true then youll never trust anyone ever again. Try to imagine, if you can, a special unit of the British army. For hire as consultants or advisers One that could operate anywhere in the world: trained to use ultimate force, as, and when required. In Belgium perhaps When the forces of law and order couldnt catch the Gang of Nijvel In Sweden maybe; to deal out retribution for the assassination of Olaf Palme In Northern Ireland, Africa or even London A branch of the services that could be used and of course discarded when no longer needed. You must use your imagination because the British government would never create such a unit. It could not be anything but fiction. There was no such unit in the British Army and all events and characters contained herein are fictitious. Any resemblance to people living or dead is purely coincidental.
