Leadership from a Scientific and Practical Perspective

By Sean Miller

GRIN Verlag Mai 2011, 2011. Taschenbuch. Book Condition: Neu. 213x159x12 mm. This item is printed on demand - Print on Demand Neuware - Seminar paper from the year 2011 in the subject Business economics - Business Management, Corporate Governance, grade: 1,3, University of applied sciences, Cologne, course: Soft Skills & Leadership, language: English, abstract: In the scientific debate on business management topics, the relevance of leadership for corporate success is a central object of research. In this field, science has a long history and began its research in the beginning of the 20th century. Since then, scientists have promoted the understanding of leadership processes to a significant degree and further on have tried to stimulate companies to rethink management practices. During this period, several approaches have emerged ranging from structure-functionalistic and personality-related to behavioral-scientific and transactional dispositions. Regardless of which perspective, in a number of studies leadership is expressed as having a great impact on corporate success. The majority of companies knows how important good leadership is it holds it all together and is a make or break function and every stakeholder fears the negative effects of management organizations that lack effective managers. Companies are in serious trouble if they...
